Ms. Shirley-David further added that DCFS is planning a training in the near future to specifically address/explain the NSP requirements to the providers.

Additionally, a transitional program is in place to ensure that the youth continue to attend school and receive on-going counseling after they have been released.

Mr. Varela further reported that in May 2013, four youth from Camp Gonzales, competed against 39 other schools' advanced placement classes and placed number one in public services announcements category and placed sixth in the overall. The youth were recognized at the Board of Supervisors.

SHERIFF'S DEPARTMENT (SD)

Commander Warren Asmus, Court Services Division, SD, reported that Commander Cooper has been reassigned from the Custody Services Division to the Court Services Division. He also announced that he has been appointed to the position of Chief of Staff to the Sheriff. A new representative will be assigned to the Commission beginning next month.

Commander Asmus also introduced, Captain Joseph Nunez of the Century Regional Detention Facility (CRDF), SD. Captain Nunez reported that there is a rise in the number of inmate-on-inmate assaults in the women's facility, CDRF. This is due to the increase in the number of women with mental health cases, as well as, the change in the prisons' culture resulting from trying to adjust to the new Public Safety Realignment, Assembly Bill 109 (AB 109). Captain Nunez further stated that the Assistant Sheriff, Terri McDonald, is in support of adopting alternative housing programs to relieve the overcrowded women's jail.

A pilot program was established and twenty (20) AB 109 women were selected to live in the alternative housing as they serve their sentences.

Similarly, there is a "Program 180;" that provides mental health and drug misuse counseling and assistance to inmates who have approximately nine months to serve their jail terms.

Captain Nunez further informed the Commission that the State women's prisons, have implemented a Women's Advisory Council to give women inmates a voice to discuss their concerns and issues with the command staff. He also advised that they are in the process of installing video cameras inside the jail facility to monitor the staff and inmates' behaviors.

Commander Asmus provided a report on the status of the construction of the Long Beach Courthouse which is currently running two weeks ahead of schedule; training schedules will begin at the end of July; the courthouse realignment is transitioning smoothly. Continuing his report, Commander Asmus advised the Commission that the Sheriff's Department does not have any additional recommendation to the Sybil Brand Commission lock up inspection form. He concurred with the form as revised.

Commissioner Burton reported that she visited the CRDF to observe some of the innovative programs being implemented by the Sheriff Department, which include a choir, beauty shop, adult bonding with children, transitioning back to the community and the reading literacy program. She described her experience as pleasant and suggested to Chairperson Montaña to schedule all the Commissioners to go visit CDRF as well. The Commissioners were in concurrence.

Commissioner Burton further advised Commander Asmus of the non-satisfactory findings during her and Commissioner Grills' visit and inspection of the Inglewood Courthouse. Some of the concerns were that water was not available for the inmates, the sinks were not working, and the sink in one of the cells was stopped-up with leech-like bugs floating in the water. Commander Asmus will follow up on the concerns.

3. Chairperson's Report on various items for July 17, 2013. (13-3349)

Chairperson Montaña shared the following Newspaper Articles:

○ **Los Angeles Times:**

○ **Daily Breeze:**

- **Men's jail to face wrecking ball, but replacement up in air (July 17, 2013)**
- **Sterilizations put receiver on the spot (July 17, 2013)**

Commissioner Burton's email regarding the article titled "Female inmates sterilized without required OK," published in the San Francisco Chronicle on July 7, 2013, was distributed to the Commissioners. Commissioner Burton further reported that the mental health ward inmates are cuffed to an apparatus all day, regardless of their offenses; the cuffs are on the inmates through the entire time that they are participating in any kind of activity, including taking a shower. She expressed that there is a need for another method of restraint and at the least provide the inmates with some materials for art, reading, and/or writing as an alternative to watching TV while cuffed to a table, speculating that some of the prisoners may remain in that inhumane condition for years. She recommended that training may be needed for the officers as well.

Chairperson Montaña reported that she will be scheduling the Commissioners to go and conduct some jail inspections and inquired about their availability. Commissioner Burton recommended to the Chairperson that the Commissioners should be assigned to conduct jail inspections according to their availability rather than waiting for all to be available and/or going to one location at the same time. On that note Chairperson Montano assigned Commissioners Grills and Burton to go and conduct the inspection of CRDF on July 18, 2013.
